## PROFILE

---

Seeking an internship that offers strong mentorship, meaningful responsibilities, and hands-on project experience, where I can actively learn, contribute, and build a strong foundation for long-term professional growth after graduation.

## EDUCATION

---

**The University of Texas at Arlington** | Arlington, TX

Expected December 2026

Bachelor of Science in Economics

- Relevant course work: Economic Data Analysis and Visualization, Managerial Economics, International Trade, Macroeconomics, Microeconomics, Python for Data Science, Intermediate Programming, Business Finance, Business Law.

## TECHNICAL SKILLS

---

Programming: Python | R

Platforms: Tableau | Microsoft Office | GitHub | Visual Studio Code | RStudio | Jupyter

## EXPERIENCE

---

**Patriot DSP, LLC** | Roanoke, TX

June 2024 - Present

Amazon Delivery Associate/Trainer

- Delivered 30,000+ packages with a near-perfect on-time rate, surpassing operational performance targets.
- Navigated 100 to 195 stop stops across rural and suburban regions while operating cargo vans, Rivian EDVs, and DOT step vans under strict safety and compliance standards.
- Trained and evaluated 20+ new Delivery Associates through ride-along coaching on safety protocols, navigation software, and package organization.

**UT Arlington Parking and Transportation** | Arlington, TX

August 2023 - December 2023

Parking Enforcer

- Issued 10-15 citations a day with accuracy and professionalism while communicating policies to students, faculty, and visitors.
- Directed parking coordination during high-attendance campus events with 400-500+ attendees, supporting smooth traffic flow and effective crowd management.

**UT Arlington College of Nursing** | Arlington, TX

October 2022 - May 2023

Fron Desk Assistant

- Screened and routed 30+ daily phone inquiries, ensuring timely and accurate information flow across departments.
- Covered front office operations by assisting 10-20 students and visitors while maintaining an organized and welcoming reception area.

**Uber** | Dallas-Fort Worth

May 2022 - August 2022

Driver

- Provided reliable airport transportation by completing 30-40 trips per shift, coordinating precise pickup and drop-off times to ensure passengers arrived for scheduled flights without delay.
- Transported passengers during high-volume nightlife hours and major events multiple nights per week, maintaining consistent service quality in dense traffic and crowd-heavy environments.

## PROJECTS

---

**US vs China GDP Growth Efficiency Analysis** – Python | Excel | Economic Data Analysis | Efficiency Metrics

- Conducted comparative time-series analysis based on real GDP growth and CO<sub>2</sub> emissions data
